

# **CARDIO PULMONARY RESUSCITATION (CPR) YUKON SOCIETY**

**STORY: Cardio Pulmonary Resuscitation (CPR) Yukon Society began as CPR Heart Fund in 1978 in response to an identified need for formal CPR training. CPR course interest and demand spread throughout the Yukon from just hospital and ambulance personnel to the general workforce and public.**

**In the mid 1980's, the Society successfully fostered a working relationship with Yukon College to fulfill the objective of providing a coordinated Yukon-wide approach to training and awareness of CPR.**

**Today, the legacy of CPR Yukon is a territory-wide network of first aid and CPR instructors and equipment promoting injury prevention and treatment. Thousands of Yukoners gain and maintain life-saving CPR and first aid techniques thanks to CPR Yukon.**
